

TCVC COVID-19 Safety Protocols

We're dependent on one another for our collective safety. As you prepare for the retreat, plan to meet the following requirements:

Before the retreat/What to bring

- **Please take great care in the ten days before you travel to minimize your risk of exposure** to the virus: avoid crowded events and use an effective mask (N95, KN95 or equivalent).

If you're traveling by plane, wear a mask at the airport and during the flight.

- **Bring 2 FDA-approved rapid Covid Antigen Tests.**
- **Bring masks** if you wish to be cautious or to use in case you develop cold symptoms.
- Vaccination is not required.

During the retreat

- **Testing:** You will take a Rapid Test upon arrival at Koronis Retreat Center and again after 48 hours.

If you test positive, you will need to leave the retreat.

- **Masks:** Masks are optional but welcome.

If you have cold symptoms, please wear a mask in public areas.

- We will be chanting as a group.

Frequently Asked Questions

What happens if I test positive?

If you test positive before or during the retreat, you will need to leave. If you're unable to arrange immediate transportation to your home, you must quarantine somewhere other than Koronis.

What happens if someone else tests positive before or during the retreat?

You will be informed if anyone tests positive for COVID-19 on retreat. If someone tests positive, we won't cancel the retreat nor require masks for the remaining participants.

If I test positive, will I receive a refund of the retreat fee?

If you test positive before the retreat begins, you'll receive a refund of your retreat fee minus \$250. If you test positive after the retreat has begun, in addition to the \$250, TCVC will retain whatever amount that Koronis Retreat Center charges for your room.

What will Koronis Retreat Center staff be doing to support our safety during the retreat?

- Koronis staff will follow the same testing and masking requirements as participants.
- Other groups may be coming to the center during our stay and meeting in other areas of the retreat center. Direct contact with other groups will be minimal.
